

- *"But you will receive power when the Holy Spirit comes on you; and you will be my witnesses in Jerusalem, and in all Judea and Samaria, and to the ends of the earth" (ACTS 1:8)*

2000 years ago, Jesus stood here in the Holy Land and spread his word to the faithful. Today, you can broadcast your own vision from the very same place.

Positioned in the heart of Israel, near Jerusalem, Satlink unites all broadcasting services in one complex. With modern facilities, extensive knowledge and experience, we help bring your message to ever-growing audiences. In the most professional and cost-effective way, we meet your specific transmission and production demands.

In tune with the mindset of our religious customers, Satlink deliberately abstains from broadcasting pornographic material.

Wide Ranging Transmission Services

For two decades, Satlink has been a world class provider of end-to-end solutions for TV and radio channels distribution. Our strategic location and over 60 active reception/transmission stations enable access to a full network of satellites covering five continents.

Channel Management

Satlink provides two professional Play-Out solutions. *On Air* server-supported Play-Out offers TV channels based on pre-produced content. The world's leading Play-Out system, *Harris D Series Automation*, sits at MTVS Studios and is connected to Satlink by a fiber.

Both systems are fully redundant and offer live insertion to Play-Out facilities, channel time-delay, commercial and promo insertion. Satlink also offers you the best encryption systems available today or can host your own encryption system.

We offer:

- Flexible solutions for transmission to and from any location around the globe via multiple Satellite, Fiber and IP platforms
- Uplink, Downlink and Turn-Around services to anywhere
- MCPC platforms on strategic satellites, providing full transponder power
- Capacity on any desired satellite
- A global, high end, telecom quality fiber optic network (ATM/SDH), guaranteeing your high quality and cost effective services for compound satellite and point-to-point transmission solutions

Hardly limited to the broadcasting sphere, Satlink's customers include governments and private corporations.

For all Your TV Production Needs

Situated at a complex that includes the leading Israeli production studio, G.G Communication center, Satlink is your one stop shop. Only 15 minutes from Jerusalem, this superb complex supplies facilities for production, post production, offices and world wide distribution.

Production and Studios — Israel's Best

Through our proximity to Israel's top film and TV studios, G.G. Communication center, Satlink places the country's best studio facilities at your fingertips. G.G. center houses nine fully digitalized television studios, ranging from 200 to 1,250 sq. meters in size, and equipped to host more than 450 guests. All studios have TV digital and analog cameras, sound control rooms, computerized lighting systems and control rooms. The G.G center provides production services to the local and international TV and film industry.

Backed by the necessary experience and ability, G.G Communication center is ready and able to build studios that meet the special needs of religious channels.

Outdoor Productions Made Easy

For outdoor productions in the Holy Land, Satlink enjoys an ideal location. Sitting in the Judean Hills, we are around the corner from the best-known Biblical sites in Jerusalem, and next to the Biblical Village at Yad Hashmona, and its 400-seat open amphitheater.

We make shooting simple, helping you bring the holiest sites straight to your viewers. And with Satlink's sophisticated mobile satellite units, you can transmit your content live from different locations worldwide, 24/7.

Satlink is:

- Your gateway to the world
- Clean of Erotic Content
- Complex for all your broadcasting needs
- Near Jerusalem

"For out of Zion shall go forth the law and the word of the LORD from Jerusalem" (Micah 4:2)
